WELCOME HOME!

King's Court LOCAL this is your King's Court LOCAL

MISSION:

At King's Court Local, our endeavor is to cultivate an online haven where the richness of human connection and the vibrancy of local community spirit are not merely present, but are the cornerstones of our existence. Our mission is to transcend the superficiality of conventional social media, fostering a realm where depth, authenticity, and genuine engagement are paramount.

VISION:

Envision, if you will, a digital salon, a modern-day Algonquin Round Table, where local artisans, entrepreneurs, and citizens congregate in a celebration of community and shared interests. Our vision is to weave a tapestry of narratives and connections that enriches the very fabric of our local community, fostering an environment where every individual and business can thrive in the warm embrace of support, understanding, and mutual respect. In this pursuit, we are not just building a platform; we are nurturing a community renaissance.

Welcome to King's Court Local, a digital haven where the essence of community and the art of genuine connection are not just preserved, but celebrated with the zest of a perfectly brewed cup of coffee on a Seattle morning. In an age where digital interaction often skims the surface of the sea of human connection, leaving deeper, meaningful engagement undiscovered, King's Court Local emerges as a lighthouse guiding us to a richer, more fulfilling way of interacting.

This platform is a tribute to the vibrancy of our local community, a testament to the belief that the true value of a network lies in the strength of its connections, not the quantity. At King's Court Local, we embrace the notion that every individual, every business, has a unique story to tell, a distinct flavor to add to the melting pot of our community. It is a place where passions and interests take center stage, transcending the conventional constraints of titles and credentials. Here, we celebrate the barista with a flair for latte art, the local artisan whose craftsmanship is a language of its own, and the myriad of unique characters that make up the rich tapestry of our neighborhood.

Our platform is a departure from the cacophony of mainstream social media, a sanctuary from the relentless pursuit of likes and shares. It is an invitation to slow down, to engage in conversations that meander and enrich, to forge connections that warm the heart and stimulate the mind. King's Court Local is not just a space to connect; it's a place to belong, to grow, and to be part of a community narrative that is written by all of us.

So, whether you're a seeker of local treasures, a purveyor of fine goods, or simply someone who cherishes the warmth of community spirit, King's Court Local welcomes you. Here, every interaction is an opportunity to weave a new thread into the fabric of our community, to contribute to a tapestry that reflects the diversity, the creativity, and the vibrancy of our shared space.

Join us at King's Court Local, and be part of a story that's not just told, but lived - a story where every chapter is as rich and varied as the members who write it. Together, let's redefine the essence of online community, one genuine connection at a time.

Welcome to our community, welcome to King's Court Local.

**Pest Control Services**

**OUR STORY**  
After spending half of a decade learning the pros and cons of other pest control companies, Luke Rambo and his wife Tera founded Rambo Total Pest Control in February 2007. They wanted to create a culture in which employees could feel empowered and proud to be Pest Management Professionals, while providing excellent pest control results, and an unmatched service experience to our customer base. Discipline, follow-through and honesty are core values here.

We undergo constant training to improve overall success and achievement because we know the success of the business is directly tied to the success of our employees. In our first 10 years in business we grew from a one person operation to a 15 person operation, primarily through customer retention, customer referrals, outstanding online reviews, and by doing the right thing when a client needs our assistance. Our intention is to remain a family-oriented business for everyone involved, and keep that mindset for decades to come.

**TEA SEATTLE - WTD/TRANSIT**

**OUR STORY**

The Technical Employees Association (TEA) is an independent professional union that proudly represents the skilled and technical workforce within King County's Wastewater Treatment Division and Transit Division (Metro).

TEA members play a vital role in the planning, design, and construction of essential capital facilities for wastewater conveyance and treatment, as well as the operation of the extensive Metro transit system throughout King County. Our diverse membership encompasses project managers, engineers, designers, construction managers, facilities inspectors, right-of-way/permit agents, water quality planners, environmental planners, and information technology and project control experts. It's important to note that TEA welcomes both professional and technical staff into its fold.
